Visual Studies is a major international peer-reviewed journal published on behalf of the International Visual Sociology Association. The journal publishes visually-oriented articles across a range of disciplines, and represents a long-standing commitment to empirical visual research, studies of visual and material culture, the development of visual research methods and the exploration of visual means of communication about social and cultural worlds. *Visual Studies* is a key resource for all disciplines that engage with images, society and culture, and sets the standard for the scholarly use of visual material.

The multidisciplinary character of the journal is reflected in its attention to visually-based research in sociology, anthropology, cultural and media studies, documentary film and photography, information technology, education, communication studies as well as other fields concerned with image-based study.
