The Australasian Journal of Philosophy (AJP) is one of the world's leading philosophy journals. Founded in 1923, it has been continuously published ever since. It is recognized as one of the best in the analytic tradition, but is not narrow in what it regards as worthy of acceptance. Heavily cited in the general philosophical literature, it is covered by all the major abstracting and indexing services, including the Arts and Humanities Citation Index® which provides access to current and retrospective bibliographic information and cited references found in the world's leading arts and humanities journals. In addition to Articles and Discussion Notes, the journal publishes Book Reviews and Book Notes as well as occasional commissioned Critical Notices.

The journal is read world-wide and has recently published contributions from North and South American, European and Asian as well as Australasian authors.

Australasian Journal of Philosophy Archive

Institutional subscribers to **Australasian Journal of Philosophy** can enjoy electronic access to the journal's rich archive as Routledge has completed the digitisation of the entire run of the journal. Access to this archive is included with all institutional subscriptions and will continue to ensure that **Australasian Journal of Philosophy** remains indispensable to all those working in the field.

Australasian Journal of Philosophy Best Paper Award

The Best Paper Award is an annual prize awarded by the AAP, in connection with Routledge. For more information on the award, click here. To contribute a paper to the Journal and thus be eligible for the award, please refer to the submissions instructions of the Journal.
